Please come on you the man.  
Negotiate in what to be done.  
Think hardly war isnot fun.  
be patient down the gun.

Never tray for killing more.  
What is the benefit of futile war.  
Donot allow to be occur.  
Peace is what we need open the door.

Yes for peace we need in Libya.  
In Yemen in Iraq and in Syria.  
Stop bombing Aleppo great Russia.  
Be hamble please throw the megalomania.

Stop killing children in Palestine.  
Respect to the others donot undermine.  
Peace is our option that we underline.  
I am optimistic the sun will be shine.

Down the tyrant in my country.  
The system that you form is slavery.  
Never young people accept this misery.  
It is shamefull action in pages of your history.  
Enough is enough evryone is angry.
