

The Dictator PIA and his party the PFDJ is co-sponsoring the renegade, to blackmail the Diaspora Eritrean Opposition.

Demolition man, certainly sponsoring the renegade Iyob Berhe "tesfazion"

Today, like it was 60 years ago, blackmailing of the Eritrean Political situation, is at its pick by different actors. The EU is campaigning to make the regime in Eritrea as amicable and as acceptable to its peoples, while every day people are rounded up enmass and taken to prison without due process. The Dutch media is also at full swing to tell the public that Eritrean refugees in the Netherlands are not integrating at all and have to be sent back if they don't integrate in the society.

Switzerland is also accusing the refugees and asylum seekers with similar blame. The UK is denying the minors the entry to its territory from Calais and the Channel. We have witnessing countries whose rightist ideologies are giving a bad image to African refugees including Eritreans and Sudanese as economic migrants.

A series of Campaigns against Eritrean Asylum Seekers:

Israel is doing the worst of all deporting Eritrean asylum seekers to Uganda & Rwanda where they are not accepted as refugees in both countries. The EU has given millions to countries in the Horn of Africa, who have given refuge to thousands of Eritreans. The Sudan is deporting using force, back to Eritrea as hundreds or thousands have been already gone, due to the agreement with the EU last year. This is contrary to the UN Convention of 1951 related to the of refugees to be accepted by countries, who are signatories to the UN Convention (unhrc.org).

Today we are witnessing a campaign using the social media and youtube users, claiming that the country Eritrea is not an independent and its people belong (partially to Ethiopians of the Tigray region called Agazzi) it is even denying the major part of Eritreans that they should not belong to this ancient race agazzian of the Aksumite kingdom. Hell..... the 3000 years fables is surfacing in 2016 to confuse the Eritrean youth with the failed Tigray Tigriñi, false story about the Independent country of Eritrea. The **venomous propaganda** of aggazzi race of the aksumite tribe, has nothing to do with the Eritrean peoples aspiration for a democratic Eritrea, that will accommodate every and every nationality in Eritrea to all; with equality, according to the legal constitution of a democratic governance in the future. Hopefully the renegades will not have a place in the future democratic Eritrea. I hope this will not remain only as a dream. Let us please make it a reality!

The un-elected President's role and his team in using a false propaganda machine 03:

The national democratic revolution and the New Eritrea are based on the Manifesto Nehnan Elamanan ideology. Ever since he declared the Nehnan Elamanan manifesto in Ala, he has been selecting those who have the Tigray Tigriñi roots and reciprocally the aggazzi prophets to destroy, the Eritrean aspiration for an independent homeland. Today the cohesion of the Eritrean societies seems to him a little bit shaky and it is a memont to use again his venom to kill the true Eritrean feeling for a total independence and liberation for his country and his people. If his dream comes true PIA will not be ashamed to abrogate the nationhood and self determination of our people. The false start to make Eritrea a prosperous nation as Singapore has short lived and government cannot even supply the people of Eritrea with the basic commodities like daily Electric power, food and clean water to the extent of daily shortage of bread (loaves) and water. There is no country in the world at this age who do not have a 24 hour supply of Electric power and electric lights in the streets of the cities. The Cambodia curse is now nicknamed the Eritrean curse. It is a sad situation to see the country ruined and its people's leaving their homes and never stopping youth exodus.

When life becomes Dire:

The desperation has passed its limit, people show signs of confabulation and start to believe in myth, even the myth of the PFDJ, which says if people do wait to the solution to come by the regime, then they would be considered as the national Heroes. As if waiting is associated with loving your people, country and the dictator himself. The myth does not belong to the independent thought of our people, but it is a failed cheap propaganda, which no one can buy it.

Then comes the youtube propaganda of aggazzi race myth, those who are delusional can be the victims of this myth on both sides of the borders and start going back to history as far as 3000 years according to the Legend. Who can in his sound mind and body believe such a trash propaganda. Time will tell who has initiated such cheap propaganda on the media outlets. Any propaganda message might have a number of followers, but if such PFDJ and their likes can twist the minds of our people; well they are wrong. People have their instinct and logical ideas and I am sure we will never be derailed by such venomous poison of Iyob Berhe "tesfazion" is trying sway the struggle of the Eritrean opposition. The obvious deterrent propaganda is to stop the demonstration planned in Jerusalem by Eritrean Refugees, who have been mistreated by the Zionist regime of Mr. Nathanyahu for years. This clear PFDJ 03 propaganda manoeuvring to deter from active opposition. This extension of the failing HIGEF, is spoken through Iyob Berhe "Tesfazion", the renegade. The spokesman of PFDJ or YPFDJ is telling us that the struggle against the regime and "start via youtube lobbying" What a sad story coming from the once feared PFDJ leader and his henchmen is now so low using a renegade to try the last ditch to a total failure and nearing its chronic disease of mischief and misguiding theory to its final demise, before it collapses.

What should be done to stop such social media being used for cheap propaganda?

The majority of the opposition will not bother to reply to such, cheap and devoluted idea directed to the diaspora Eritreans. Once an enemy of the Eritrean people PIA would go an extra mile to use such trash. It is advisable to observe what is going on around but avoid giving feedbacks to such an enemy. The Eritrean people should not be derailed from the struggle against such a brutal dictator and his henchmen. To listen to such video messages should be done with care and never give any interest to such distortion. We all know we have one enemy and that is PFDJ and its Leader, the new PolPot of Africa. What worries me the renegade got an ample audience in the south and he is getting a supportive voice in Ethiopia. This is obvious for those who dream that Eritrea will be brought back to Ethiopia, by systematically drying the sea and kill its nationalists and independence fighters. It is very tragic to be in a myth inflicted by Isais Afewerks destructive policy and those who obey his orders without asking for reasons, why is he doing the systematic annihilation of the people. Sad is also if there are fans of the renegade, who are fanning hatred between religions and nationalities in Eritrea. The situation at this moment is we Eritreans are vulnerable to any sort of blackmailing.

The waiting game of our neighbours in the west and south is not helping.

For a rational thinker it would be correct to think why are the neighbouring countries in the Horn of Africa quietly looking the total annihilation of the Eritrean people, and the blood shed caused by the narcissist PIA. Is it a wait and see game, and eventually the kneeling sown of the population to our southern neighbour, with some hopping silently that it will be a doomsday in their northern boarder and grab the opportunity to play their card.

Here is a recently magazine published a print Platform, by some intellectuals, called “A Discourse” and found it interesting to quote the part written by my old time philosopher and a historian Mr.Yosief Ghebrehiwet, that always mesmerize me to read his politico-history of the situation in Eritrea. Here he gives the logical question why do our neighbour (Ethiopia does not react as Tanzania did to dismantle the terror caused by Idi Amin of Uganda in the past decades.I would like to share his analysis with the readers, although not directed to the renagades and Co-sponsors from both boarders..... *“According to this author, as the waiting game policy by Ethiopia stays long, it generates a lot of unknown or outside regional variables that Ethiopia would never be able to control as it stays as such for a long time. The author brought up Ethiopia’s wrong decisions towards solving the problem and he bluntly argues that how Ethiopia unintentionally was helping the Eritrean regime all along and today’s Ethiopian government’s policy towards the Eritrean regime a continuation of those mistakes. But Yosief emphasizes the consequences of these flawed policies have had much more devastating effect on the very people and nation of Eritrea. He alarmed that a “generational genocide” is being committed in Eritrea where the older generation, Yikaelo, consumes the younger generation, Warsai. All these, Yosief points out, will lead to massive unraveling where the end results will be a full anarchy. In his words, “the anarchy that will follow will make the Somali one a picnic by comparison.”Yosief Ghebrehiwet went at length and defined the Ethiopian policy towards Eritrea as one of containment. Ethiopia purports to achieve at least surviving the waiting game without incurring significant loss to its side. Yosief showed how he believes the Ethiopian policy has been wrong in terms of meeting the very goals in-built to it and in the many unintended damages it caused on Eritrea.*

In the long analysis Yosief wrote, he said “The rationale behind the containment policy has been that a no-peace-no-war situation, however long it lasts, will in the final end do more damage to Eritrea than to Ethiopia.” The author likened this approach to the Regan’s policy during the Soviet era over the USSR that the Reganites believed would bring a system collapse on the other. “And that regard” ysief argues, “this policy has been delivering par excellence, with Eritrea now driven to a demographic meltdown at the center, with serious geopolitical ramifications for the entire region”. According to Yosief, this is wrong because it was possible to effect regime change while securing the nation. What the Ethiopian policy is doing, in Yosief’s view, is destroying the nation while sustaining the regime.”end quote

Yosief Ghebrehiwet although for some ex-fighters from both fronts is not agreeable, but his analysis remain very logical and upgraded to the current situation in our country.He remains a person of integrity and a man of logical ideas.It is an enlightening philosophy, which none of our Eritrean elite can match. The Eritrean uncertain future is a scary one if you think seriously as to what is going to happen for those who have remained in the country as well as to those who left their homes forced by the situation and no where to go.

“Everything in Eritrea belongs to us, to all Eritreans(replaced by).The Minirals, the Sea and the Trees belong to all of us.Don't be ashamed to claim it.”quotation from South African Youth movement,the Economic Freedom Fighter, With their leader,Malema speaking to his youth audience, Malema CIC a.k.a JUJU.

God save Eritrea and its people.

T.Yitbarek

NOTES:

1.DISCOURSE is a print platform for Africans and for outsiders who know Africa to debate African issues. The maiden issue also carried many more contents on Africa, general humanity, exclusively Ethiopia, South Sudan, and China’s signature project - One Belt, One Road.
