Eritrean National Council for Democratic Change
Regional Office of North America

Public Announcement

ENCDC-NA Preparing to Hold a Regional Congress in Denver Colorado

The Eritrean National Council for Democratic Change (ENCDC) Regional branch of North America, had in the past 4 week reactivated all its constituent members in the United States and Canada to convene a Regional 2nd Congress in the great city of Denver Colorado in December 1-2, 2018 to elect its representatives to attend the Grand 2nd National Congress to be held in Mid to end of December 2018. Constituent members in each city will receive all revised Documents of the Charter, Bylaws, and the Road Map from the Joint Executive and Preparatory Committee Office. The Assembly will review and confirm, and or send alternative ideas and propositions to the Grand National congress to be held in a location closer to home.

Members are enthusiastically proud to revitalize their human and political capital at the time of confusion due to the new strategic regional-political, and security declarations with unexpected chaotic developments that has the potential to destabilize the horn with exodus of refugees from Eritrea. ENCDC along with its strategic partners had lost earlier opportunities of bringing peace and stability in the region without the current influence of external forces from the shadows beyond our maritime borders. ENCDC has instituted new and smart adjustments to confront the enemy from suitable political and diplomatic positions. The peace declaration between Ethiopia and Eritrea had opened the people of both nations an opportunity to see and learn about what existed beyond the borders, and will

not refrain from embracing what was right, and abandoning what was wrong in the past 20 years.

We are confident that the ENCDC regional conventions will inspire the diaspora of Eritrean populace-the constituents, and other non ENCDC political organizations to join hands and create a **broader front of political opposition** against the authoritarian system that is heading towards establishing a constitutional Monarchy of his dream without the consent of the Eritrean people. If the governments in the region can “forgive and forget” a bloody war and hatred to do business and lift sanctions within 3 months, isn’t it time for the opposition to abandon all their differences and rejoice their commonalities in 3 weeks to deliver a Christmas gift, and a new year of 2019 that can genuinely be celebrated by all the people of Eritrea, and its global friends!

Victory to the Eritrean People!!

Glory to our Martyrs!
