

Older Lucy Found in Eritrea

<http://www.asu.edu/clas/iho/lucy.html>

The Ethiopians and paleoanthropologists are excited over the oldest human fossil. However, a recent discovery shows an older Lucy still among us,

EPLF's Evolution

PFDJ's Devolution

According to Eritrean researchers, higdefawiyans have digressed to an ape-like behavior and that they are wearing human masks to assimilate with the population. These researchers are amazed the warp speed with which these PFDJ creatures' behaviors have devolved to exhibit ape-like behaviors.

Interview with Riz Khan

Mr. Khan: The Americans are accusing you of supplying armaments to Somali anti-government forces.

PIA: All we are saying is, where is the evidence? Give us the proof that we are supplying these forces. Do you think I am stupid enough to purchase arms with a letter of credit with my name on it, or that the bill of lading would show me as the shipper? You guys are watching too many CSI (Crime Scene Investigation) shows. Did the Americans find my DNA on the weapons supplied to these anti-government forces? Get real! As **O.J. Simpson** said in his book, "If I did it ...", I would have bought all the armaments with untraceable cold cash, rented unregistered planes and dumped the

armaments in Juba where the armaments are then shipped clandestinely to Somalia over land.

Mr. Khan: Mr. PIA, are the Americans then claiming to possess the same types of evidences you are claiming [which are none] to your people to hold the following mothers, political **and thousands of other hostages,**

... [Mr. Khan continued] or could it be that the Americans don't want to reveal the damning evidences to protect you from the world who may cry for your head ... just as you are burying your "evidences" to protect the political hostages from "severe consequences"?

Mutual Respect in Domains of Culture, Identity and Sovereignty Key to Ensuring Peace and Stability: Minister Osman Saleh

http://www.shabait.com/staging/publish/article_007132.html

Distinguished guests and ladies and gentlemen,

Let me start my speech by saying that to stand on this podium one needs two tongues, two minds and two hearts on one body. Our president believes that where one can't say one thing and *do* exactly the opposite, one can't be standing on this podium.

"Let me start by thanking the Government of the Islamic Republic of Iran for the warm reception and generosity bestowed upon us since our arrival in this beautiful country." After all, there aren't too many countries where I am welcome, and I am just happy to travel to one country as a foreign minister. It is just demoralizing to sit in [be confined to] Asmara as a foreign minister. Can I stay here for few more days and use up my per diem?

"The Government of Eritrea recognizes the universality of the inalienable nature of human rights. Based on its strong commitment to the respect of human rights, the Government has been doing and continues to do its utmost to promote social justice in the country and to create a country where its citizens live without fear or want."

Excellencies

As our president, May he live for thousand years and May his children lead our country for another thousand years, said, the West won't define our democracy and definitely won't define for us what humans are.

Throughout history, and including recent American and South African histories show that slaves weren't considered humans. In Eritrea, everyone turning eighteen officially, and unofficially any one over thirteen, is sent to slavery camp for life. The camps are called Sawa and Kilima. These are camps where we turn humans into slaves, then back into human. What are our definitions of human? Simple, we don't complicate things: fail school, talk like Gen. Wuchu, snitch on fellow slaves, pray everyday under our president's picture, obey totally their military superiors, develop taste for whisky and life, and don't ask any questions. *Once these slaves prove themselves by fulfilling these requirements, they become full humans accorded all the universal rights they deserve.* If one is wondering if humans can be reclassified into slaves, the answer is unequivocally yes; it is a two-way street.

Devolution of Eritrean Generals

HIGDEFAWIYAN'S WISH ...

Higdefawiyen's Wish !

This is a wake up call from Meskerem.net to all higdefawiyans. If Eritrea is blacklisted, these are the consequences for higdefawiyans –

- No more PFDJ hate propaganda on its satellite television. What are higdefawiyans to do with all their time when ERITV is pulled off the air? They will die of boredom, nothing to talk about, etc...? My brotherly advice to higdefawiyans is to NOT start smoking ganja and weed to beat their new found boredom.
- Higdefawiyans won't be able to travel to Eritrea. Asmara Rose won't be able to write her superficial reports.
- What will happen to all the lands they bought?

Sorry, Meskerem.net ... higdefawiyans are slipping out through the backdoor.

It is NOT what one says but what one does that defines one.

Question to the Opposition Camp:

Do we formulate and advocate for certain acts and policies based on JUMPING ON THE BANDWAGON, i.e. bandwagon politics ...?
