

**AMERICAN ERITREAN ORGANIZATION FOR
JUSTICE DEMOCRACY AND DEVELOPMENT**

**Important Notice for Eritreans that are denied
Asylum and Green Cards in USA**

Ever since we were contacted by many Eritreans, the American Eritreans Organization for Justice, Democracy and Development (AEOJDD) is closely following up the ordeal of hundreds of Eritreans that have been recently denied Asylum and Adjustment Status (Green Card,) by the Department of Homeland Security, based on the newly introduced lingo of interpretation of the – material support to terrorist organizations .

In accordance with our firm commitment to defend the basic human rights of all Eritreans that have, and still are, suffering from the yoke of the despotic regime in Eritrea, we have already contacted many Local and International Human Rights organizations, and urged them to exert their pressure on US government to give its protection to the Eritrean Asylum seekers and Refugees, and to set off an orchestrated campaign to stop the ongoing implementation of this unfair decision.

The American Eritrean Organization for Justice, Democracy and Development (AEOJDD) strongly believes that the United State of America honors the right of asylum of individual as specified by international and federal law under which a person persecuted for political opinion or religious beliefs.

Therefore, we are calling upon all Eritreans that are victims of this unanticipated notice of decision of the Department of Homeland Security to contact our office, so that we can set up a collective plan in order to challenge the unfair decision legally.
