

## **EDA IS DYING TIMELY AND NO EDA ANY MORE!!**

*The forth coming is not a congress to revive the disgraced Eritrean Democratic Alliance (EDA)*

Since its emancipation or inception for the real matter, the Eritrean Democratic Alliance was and is a source of squabble for the Eritrean opposition camp. It was there sinister alliance was made to oust member organizations out of justice. Its inside the Alliance were all the hogde bodge have taken place. It was the Eritrean Democratic Alliance (EDA) that has split it self into two camps. Its the Eritrean Democratic Alliance (EDA) that has damaged the real sense and feelings of Eritrean people. Was not the Eritrean democratic Alliance (EDA) that has destroyed the real sense of solidarity with our neighbors? Was not in 2005, at the birth of the Eritrean Democratic Alliance (EDA) the true nature of the consensus was changed into three-fourth where the Alliance is divided in to two? What a good product was made out of the Eritrean Democratic Alliance (EDA) to insist to use the same nomenclature-EDA where milion names can be produced? The trend we are departing is not to revive the dead EDA but to form a new, peacefull, and productive alliance or front devoted for a real change. Those disgraced minds, always, bullied for a setback, even now are using the name EDA as a tag for the forth coming front. Its immaterial and give it a million name including grand father's name, unless, one stands to serve as obstacle or to put a stoppage in front of the progress, EDA is not the best alternative in what so ever parameter. Therefore, the new change should be wholistic. It has to be a new front with a new spirit, name, and stamp. Period. People are fed-up with the name-Eritrean Democratic Alliance-EDA for the very reasons enumerated above. To cling to a deadly and devilish stature is not wise and logical unless something in mind is still there un changed. From now on ward, such sinister projects should not be tolerated and no more EDA1 & EDA2 or bolck one or two. EDA is dying timely and no more EDA!!
