

Press Release

Public demonstration

We, concerned citizens and residents of Canada Eritrean origin in Ottawa are planning huge demonstration in May 27, 2011 in front of the UN office and the parliament Hill.

The main purpose of the demonstration is regarding the horrific tragedy that happened in the Mediterranean Sea in March 22, 2011 whereabouts 400 young people perished near the Libyan coast while escaping the Libyan situation.

This event has angered and deeply affected the Eritrean community in general and the youth in particular because many of them were their friends and age groups.

The concerned Eritrean community members in Ottawa would like to appeal to the Canadian government to take the initiative to investigate this horrific loss of lives since Canada is a part of the NATO group involved in the Libyan situation.

We also call upon the UNHCR to seriously look at the plight of Eritrean refugees in North Africa and the Middle East to save their lives.
