

**Those who live by the Sword will Die by the Sword!**

Help if can; was it Berdage General ወይስ በርግዶ የጃጃ ካሳየ ጭምድ who is now the star who is flashing the twilight in the dark tunnel?

From the horse mouth, Afeworki Fitsum, former TPLF fighter who captured the disgraced former Derg general Kassaye Chemed, we heard on Tigray Media House aired on 14/07/20 that the general's head was pulled out from fornicary, anthill, snuggled between dead bodies in the hope he would escape arrest unnoticed. He had enough time to cut off the spangles on his lapels and shoulders he had been masquerading with in the streets of Addis to flatter the public for his bovaristic self interest.

The octogenarian un deserving general appeared on air last week with un receded dark colored hair compared to what it was when he first appeared on 13/01/19 on another show. This suggests between them and now he has spent some of the money he has managed to siphoned off from the ኢሓዳውያን to transplant and doctorate his hair with the hope he would look young and hold a post in the new government and you know the rest... help himself and would betray the cause when the going gets tough. His captors were magnanimous. They set him free and look after his family, all of whom have earned education and professions and live in peace. They seemed to be too much concerned and massage the injuries of the defeated. They redeveloped their towns and cities. They fostered their language and culture to flourish and yet again dominate others without ill feelings. For good or bad they shared power and run their own regional affairs . And yet they are not satisfied. Even if the EPRDF lay red carpet for them to walk on , pave the roads with glittering gold, they will not be happy, because they have not done it themselves. But centuries have passed let alone for others they have not done it for themselves, they were good at building steatopygia. On the contrary when they had the means and power, people the likes of the general terrorized and murdered not only those who hold arms and fought against but innocent bystanders. As if that is not enough he reappears and preach for war. What you call such a person? A Coward ጋኔን! And what do call those who entertain and embraced such a mythomaniac crepehanger? ጎብለልተኛ ኢሓዳውያን at the edge of a cliff unable to see what is awaiting their destructive belief that will no more come to life: a remora that devours the blood of serfs. What do you expect in a country where 99.9 % of the generals and high ranking military officials were from the ruling class with the exception of one Eritrean general Aman Andome who did not last long. The air force, ground force and mechanized elites were one and one the same and exacted brutal punishments on people they regarded as second class here to serve their one need and one nation.

Look at this ultracreperiderian senile, he calls Jewar Mohamed ዲቃለ! For a start who is ካሳየ ጭምድ; who is Abiy Ahmed? But you cannot help but observe that Unitarian ኢሓዳውያን does not only means One language, One culture, zone flag but also One ethnic blood. These are the people at the helm of power for hundreds of years who pulverized our existence and yet call us people who dwell and forge from the rocks!

I am not going to suggest what this ቅሌታምሽ ማግሌ need have to say or do. It is a waste of time. Those born evil, with the exception to the rule, will always remain evil for the rest of their lives.

That said I will now attach the remaining piece I posted the night I watch the general being showered and Greed for his service; did I say service, I meant to say for his treason to the people.

These days anything is possible. The Sun rises in the West, if you have doubt ask the new scientists, the old ones are fake! And so it goes, hard to believe one's own eyes watching a Fake-News of would be Face-Book TV channel presenter, ጆስ ዳውን ሽ (<https://youtu.be/iTt5Db4uRYY>) - Joseph Gebre (ዮስፍ ገብሬ) -accompanied by amateur ensembles walking in to the residence of former General Kasaye Chemed (ካሳየ ጭምድ) of the Dictatorship of the Derg era with fifteen thousand Bir as a Christmas gifts that included a live sheep dragged on leash for all to see and a basketful of cake propined by **Habessha Beer**, **Coffee International Bank** and **Motherland Agro-Industry** firm for his gallant job defending the country from Eritreans(EPLF) and Tigray People Liberation Front. Joseph probably was not born when the general and his cronies were maiming, marauding, murdering and terrorizing the residence of Addis Ababa, leave alone what epic atrocities they committed in Eritrea and Tigray. Weird it may seem but the day has come when people like Joseph feels nepenthe enough for

monsters like ex- general Kasaye to welcome and shower with gifts and abrazos. I ask every decent and peace loving person to boycott purchasing and using the products of these firms to teach them a lesson that any business out in the market is to sell and make profits and not get involved in politics for the wrong or right reasons.

In his own word, putting aside the customary exaggerations and lies such people are renowned for, he drove the TPLF and EPLF as far as Dedebit and Nakeffa respectively whilst at the same time he admitted trampling to death hundreds of thousand Eritrean peasants on his way.

Listing to this pococurante's assessment, and by the way the PM, Abiy Ahmed has used the exact same words, that the Dictatorship of the Mengrstu Hailemariam, fell not because of the liberation movements advance but because of its political bankruptcy. Those who were not born or too young to remember anything, the likes of Joseph may want to believe these lies but people like Teka Kasa dwelling in the military camp and as young as 13 years of age, not only were aware of the imminent fall of the Derg, but we were worried about the guerrillas who were miching in and out of the Asmara city but also of the military guard at the entrance gate. Every time we came back from outside the camp at about 6.00pm past, when it gets dark, the guard would perform corybantic move pointing his gun with a shout to halt when we approached the gate and we have to shout back as quickly as possible the day's password before he unloaded a fuselage of bullets and perforated us out of existent.. Yes, his story posted on Aiga Forum, would tell you, not only the tragic death of his father, the pain and smell of recovering wounded soldiers in the Nissan huts where 30 families lived in a single hut each separated by a not more than the length of tall man/women height, where you hear the breath of the person living next door let alone doing other illicit activities at night.. Everyday hundreds of dead and wounded soldiers would arrive to the military hospital.. If this is not a military defeat what is if I may ask the general who never had to share his car let alone his home as we did - a corrugated iron from the base all round, like a tunnel? It looked like the underpass of Debre Sina except there were no herds of baboons to worry about but then you had the guerrillas to think of in case they made a raid.

Even if let us say, the Derg's defeat was brought a s a result of political corruption and/ or inept. Isn't political ineptitude a product of military failure to achieve the main aim of the central government dominated by one group's (Amharas) interest, that was cardinally set out to be at the expenses of

marginalized nationalities treated as second class citizens. Lack of military par excellence led to political bankruptcy. After sitting for 27 years in a cozy house he is proud to own (there is no ill feeling about that everyone needs to have a place of his own), , rather than in a prison cell. The general's wife stated that they have four sons and daughters and they are well and secured -good, but she failed to note that the general was responsible for the death of thousands of Eritreans and Tigrayans in the homes and fields of the regions. If Eritreans and Tigrayans' lives do not mean anything to her and those who share the same views like her and her husband, tens of thousands of others including Amharas were killed and thrown in the streets and corners of Addis Ababa, and other cities as well. The general lacks the mental capacity to figure out how lucky he is to be alive and well; and instead of being grateful to the Ethiopian people, this general, and instead of asking for forgiveness, he calls himself tough and ironfisted - and is left brooding and waiting for the moment to revenge - revenge it was when he called TPLF "she" as if being she (woman) is an inferior creator , like the old times when women were granted the status of domestic servants gratifiers of sexual desires.. By the way the liberation army that drove him and his crony out

from Tigray and Eritrea were made of men and women of equal calibers and statues unthinkable and an unbeknown to him. What is the point of appointing 20 odd women to the ministerial level if the mentality of these people is not change about the very women they deploy them to be used as a political card game to deceive the public at large?

The TPLF may be corrupt, but so also all the people who served the government of EPRDF and the past. Didn't Mengistu Hailemariam embezzled the bank and carried a plane load of cash when he skedaddled to Zimbabwe with his family. Hasn't PM Abiy Ahmed securely kept his family in America and spent millions of dollars to train personal bodyguards to look after him and his family in America. Isn't it a morale insanity to have a birth day party on board of a plane when at the same time an innocent Engineer was killed in the streets of Addis Ababa? Isn't it malfeasance when Gedu and Co commission a jet plane to crisscross the USA to galvanize support for their Neftegna's' project they have in mind to implement.

Isn't it a moral decay when a cabal seize power not through peoples consent but by plot, they way this group running the country today have?

The Germans wronged, the Jew, the Gypsies, the Polish , the Africans. They wanted to dominate the world and in their unrestraint desires to achieve their bedeviled project, they inflicted untold misery to their victims and eventually made a mess for themselves.

The most puzzling thing to see an Eritrean leader running around with people who in the long run do not seem to have the best of intension for the Eritrean people. If the Eritreans allow this madness to go on unchecked there may came time to regret. But what is regret after a damaged being done. The best thing to do is so something while they can before it is too late.

Once the war was over, most Germans realised what a mess they were led in to. Sooner or later they went through piacular rites and thereafter they began to hooly assess their actions and role they need to play, Here in this country no wrong doing against fellow countrymen/women amounts to clean the mind of wrong doers; they want to cling to their habits as addicts. What can you say except God part me from the road they have chosen to take.
