

Fools Paradize!

If you look from a distance as a free thinker, Isayas and his acolytes are a disgrace traitors who betrayed the Eritrean people who fought for thirty years to regain their independence. But the canting streetwise hoodlum who from early age was inflicted with inebriety, sipping derge from mead, left over by customers, was no freedom fight with intent to see Eritrea's independence. Freedom seeking people, freedom seeking political organisation/s con and should not be a tool of suppression imposed on other freedom seeking people; as Isayas has become.

Commencing the dawn of 14th century the Amhara who emerged a nation saw the decline of Aksum as a soft spring they could easily bent and twist. Finally in 1889 they entered into a deal and sold part of Aksum to Italy retaining the other half for themselves as a subordinate.

The Italians created a vassal state whose population was brainwashed that they came from another planet, that has nothing to do with their neighbour Tigray.

This delusion was tested against time but it was not easy for some to accept the fact that they did not come from outer planet and that they are not that much advanced as they thought convinced by the Italian masters. But the hallucinating drag inhumed has kept the mind of some, the likes of Isayas, firmly transmogrified.

When a woman not worthy mentioning her name from the Amhara ruling group of Gotham, visited Isayas in Asmera, a year ago, presented a doucer of artifacts, made of gold that of the menhir of Aksum and alphabets of Geez to reinforce the concordat they signed whereby part of Tigray would be curved off and given to Eritrea and the remaining large chunk taken by Amhara, the dream Menelik reincarnated.

That is why the Eritrean are now issuing Eritrean identity card in the region it has invaded. A dream of drunkard boffins halfway dosing on the side of a street not knowing where they are heading!

Now the Amhara PM has agreed that Eritreans will exit, what has Isayas delivered for his acolytes? Shameful vagabond who does not learn an iota from his past reckless misdeeds! But can we expect from such an idiot; a family disgrace you wish not he ever come to exist; a prodigy of Amhara flimflam once again hung to dry with an ort in his dribbling mouth!
