

Blood on Your Hands!

The monster with end to end heads attached, one of a colubrine with poisonous fangs and the other of a semblance of an arachnid (scorpion/spider) attached to the tail (a snake with a spider tail) that I observed slithering on the rocks of Persia appears not the only imposter, master of deceit, preying upon the unsuspecting victims.

The leaders of Iran, secular or otherwise, are masters of deceit and pretence, claiming they are both victims and raptors.

Ever since they came to power in December 1979, they claimed to be wronged by the world and began enlisting the sympathy of oppressed people from different corners of the world. No sooner than that, they began exporting their version of righteousness and faith, dictating that no one should question, oppose or stand in their way.

How is it possible that people who claim they are led by truth, honesty and justice now become culprits in a genocide being carried out by a person whose only commonality is a Muslim surname? Do Iranians really have an historic claim against people they regarded as their enemies by virtue of the fact that most of them are orthodox Christian followers?

Every year they keep flagellating their backs with chains for the loss of leader al-Husayn ibn Ali, grandson of Mohammed, from a mother, Fatima, who sought refuge and protection in Tigray before she headed back to the Arabian desert, now oil rich curse, a hell for labourers sweating to death.

How is it possible that the rest of the world came to an expeditious rescue mission when an Iranian drone hit the oil field of Saudi Arabia and now are willing to tolerate the same drones killing and destroying Tigray as it suffers a famine?

What do sanctions mean if the world is not blocking the Iranians selling drones to Ethiopia to subjugate Tigrayans and Oromos?

Why cannot the world stop the Iranians selling drones to kill innocents as much as they are desperate for them not to produce nuclear weapons? Is there any difference between being killed in a nuclear attack or by drones? Or is it just that the world will sacrifice Tigrayan lives but not Israeli? Death is death and Tigrayan lives matter in this world!

I keep wondering if the leaders of this place have two heads, like the Anguine residing between the rocks.

The land appears to be the birth place polycephalics but not the usually occurrence of incidences in nature but the unusual. In here the mutation takes a different form to the benefit of the subject - two heads not side by side but in opposite directions. One in the normal place where the head ought to be located and the other on the tail with a semblance of delicious titbits for an aware bird of prey - a colubrine snake with spider tail!

And the other nation, Turkey, the Sick Man of Europe, straddling one leg in the East the other in the West, stretched to the limits, trying to get the most of the both Worlds, but in vain. Preaching and practicing authoritarian rule. appeasing the Democrats, flirting with money as with religion doing a Faustian pack with the devil to help run an economy grounded to a halt. Far-fetched delusion, sign of lack of compos mentis of Erdewan to champion and aid a genocide leader whose has a Moslem surname but avid Christian Evangelical to the bone.

And to those Amhara supporters, Tigrayans will never ever submit to yet more subjugation and humiliation and will fight till the last man, woman's life is brought to rest.
